Parallel Pieces

An Introduction to Improvisation through Visual Art!

Curious about improvising but don't know where to begin?

Come jumpstart your creative voice with a fun masterclass!

"Parallel Pieces: An Introduction to Improv Through Visual Art",

In this dynamic and hands-on workshop, led by internationally acclaimed flutist, coach and mentor **CAMILLA HOITENGA**, you'll experience how contemplating works of visual art can inspire you

- **to interpret** art as a graphic score,
- **to respond** to its emotional impact and/or technical construction
- **to create** music that reflects as a "parallel" to the artist's creative process.

Throughout the course you'll **develop fresh approaches** to musical expression, **expand your technique** to create your own "parallel pieces" bridging the worlds of sound and sight and by the end of the course be able to **confidently improvise** on your own!
